Senior Software Developer · Backend & AI Systems · Full Stack Developer

PROFESSIONAL SUMMARY

Results-driven Senior Software Developer with 3+ years of experience architecting high-performance backend systems, AI-powered analytics engines, enterprise ERP platforms, and cross-platform mobile applications. Promoted from Junior to Senior Developer, demonstrating rapid technical growth and the ability to own complex, multi-product delivery. Core expertise in PHP & Python Full Stack Development with deep specialization in backend architecture, LLM integration, scalable API design, and cloud infrastructure. Consistently ships production-grade systems end-to-end — from schema design to deployment.

TECHNICAL SKILLS

Languages

Python · PHP · JavaScript · SQL · Java

Backend

Django · FastAPI · Laravel · Flask

Frontend/Mobile

Angular · React Native CLI (Android & iOS) · React

AI / ML

LLM Integration (OpenAI, Claude, Gemini) · Prompt Engineering · AI Analytics Engines

Integrations

REST APIs · WhatsApp API · Telephony/Cold Calling · Payment & Banking APIs · Voice-to-Text · ChatBots(Whatsapp & Web)

DevOps & Cloud

Docker · AWS · Nginx · Firebase · Vercel

Database

MySQL · PostgreSQL · Vector DB · MongoDB

AI Tools

Cursor · Claude · Git Copilot · Trae · Lovable

WORK EXPERIENCE

Senior Software Application Engineer / Full Stack & Mobile Developer

Apr 2023 – May 2026

Dream & Magic Media Pvt. Ltd. - Bengaluru

- Promoted from Junior to Senior Developer, assuming architectural ownership across 5+ concurrent production systems.
- Designed and delivered end-to-end backend services, REST APIs, AI analytics platforms, and React Native mobile apps serving thousands of daily active users.
- Led integration of WhatsApp Business API and telephony systems into a multi-module ERP, reducing lead response time by ~40%.
- Maintained 99.9% uptime across microservice-style backends (Django · FastAPI · Laravel) deployed on AWS with Docker and Nginx.
- Mentored junior developers on API design, code review standards, and CI/CD deployment best practices.

Software Developer — CRM & API Integrations Oct 2022 – Mar 2023

Green Mark International - Singapore

- Developed and maintained a customer CRM system, streamlining client lifecycle management for an international operations team.
- Integrated payment gateway and banking APIs enabling secure, automated transaction processing and reconciliation.
- Optimized REST API endpoints for CRM dashboards, improving data retrieval performance by ~30%.

KEY PROJECTS

AI-Powered Campaign & Lead Analytics Engine

Python · Django · FastAPI · Angular · PostgreSQL · LLM (OpenAI)

Role & Responsibilities:

- Python & Django/FastAPI Full Stack Developer — designed and built the complete system from database schema to API layer and Angular dashboards.
- Architected an end-to-end AI analytics engine processing 50,000+ lead records daily with sub-second query response times via async FastAPI endpoints.
- Integrated LLM (OpenAI) for natural language querying of business metrics, reducing analyst query time by ~60%.
- Built automated data pipelines eliminating 70% of manual reporting effort and enabling real-time decision-making for sales and marketing teams.

Total SQFT – Enterprise ERP Platform

PHP · Laravel · Django · FastAPI · Angular · Docker · Nginx · AWS

Role & Responsibilities:

- Python & PHP Full Stack Developer + DevOps — owned backend architecture across Django, FastAPI, and Laravel; managed Docker/Nginx deployment on AWS.
- Architected a multi-module ERP covering lead management, billing & accounting, campaign analytics with ML-based predictions, and a customer self-service portal.
- Integrated WhatsApp Business API and cold-calling systems, boosting sales team efficiency by ~35%.
- Implemented campaign prediction models improving lead conversion forecasting accuracy by ~25%.

Chatbot Automation Platform (WhatsApp & Web)

Angular · Python · Django · MySQL

Role & Responsibilities:

- Python & Angular Full Stack Developer — sole developer for the webhook engine (Django), chatbot flow logic, CRM sync, and the Angular no-code builder UI.
- Built a no-code chatbot builder enabling non-technical users to design conversational flows; deployed across 10+ clients handling 5,000+ interactions/day.
- Reduced manual lead data entry by ~80% through form automation and CRM synchronization.

Construction ERP System

Django · FastAPI · Angular · MySQL

Role & Responsibilities:

- Python Full Stack Developer — built all backend modules (project tracking, procurement, labor, machinery) and Angular UI dashboards end-to-end.
- Delivered a full-featured construction ERP covering project, material, labor, and machinery tracking with financial forecasting models.
- Reduced material over-procurement by ~20% and improved multi-project budget accuracy through resource prediction algorithms.

E-Commerce Platform – Roxynivah

Django · Laravel · Angular · MySQL

Role & Responsibilities:

- Python & PHP Full Stack Developer — built catalog, cart, order management, and delivery tracking APIs in Django; admin and supplementary modules in Laravel/PHP.
- Built a production e-commerce system with catalog, cart, order management, and real-time delivery tracking; processed 500+ transactions/day.

ERP Mobile Application

React Native CLI · Laravel & FastApi & Django APIs

Role & Responsibilities:

- React Native Mobile Developer — sole developer for cross-platform Android & iOS app, integrated with existing Laravel and Django REST APIs.
- Delivered offline data sync, push notifications, and biometric authentication — rated 4.3/5 by internal users.

Corporate Website Backend – Kraheja Corp

Laravel · PHP · MySQL

Role & Responsibilities:

- PHP/Laravel Backend Developer — developed scalable REST APIs and secure content management layer for krahejacorp.com, a high-profile real estate corporate website.

EDUCATION

Bachelor of Computer Applications (BCA) *Score: 85.33%*

Excel College for Commerce & Science, Periyar University · 2019 – 2022

Python Programming Certification *Score: 95.2%*

ETS Academy, Ministry of MSME (Govt. of India) · Jun – Aug 2022

ACHIEVEMENTS & ACTIVITIES

- Presented a research paper on Internet of Things (IoT) at a collegiate technical symposium.
- Competed in national-level game design competitions and multimedia IT & business events.
- Served as an NSS (National Service Scheme) volunteer, contributing to community development programs.
